Microbacterium] brachy group	<div></div> Brevundimonas	<div></div> Filifactor	<div></div> Moraxella	<div></div> Selenomonas
Microbacterium] nodatum group	<div></div> Butyrivibrio	<div></div> Fretibacterium	<div></div> Mycoplasma	<div></div> Shuttleworthia
Microbacterium] saphenum group	<div></div> Campylobacter	<div></div> Fusobacterium	<div></div> Neisseria	<div></div> Slackia
Microthiophila	<div></div> Candidatus Saccharimonas	<div></div> Gemella	<div></div> Odoribacter	<div></div> Sphingobium
Microthleplasma	<div></div> Capnocytophaga	<div></div> Granulicatella	<div></div> Olsenella	<div></div> Sphingomonas
Microtinobacillus	<div></div> Catonella	<div></div> Haemophilus	<div></div> Oribacterium	<div></div> Staphylococcus
Microtinomyces	<div></div> Caulobacter	<div></div> Johnsonella	<div></div> Parascardovia	<div></div> Stenotrophomonas
Microaggregatibacter	<div></div> Corynebacterium	<div></div> Kingella	<div></div> Parvimonas	<div></div> Stomatobaculum
Microprevotella	<div></div> Cryptobacterium	<div></div> Kosakonia	<div></div> Peptococcus	<div></div> Streptobacillus
Microorhizobium–Neorhizobium–Pararhizobium–Rhizobium	<div></div> Defluviitaleaceae UCG-011	<div></div> Lachnoanaerobaculum	<div></div> Peptostreptococcus	<div></div> Streptococcus
Microoscardovia	<div></div> Dialister	<div></div> Lautropia	<div></div> Porphyromonas	<div></div> Streptomyces
Micronnipila	<div></div> DNF00809	<div></div> Lentimicrobium	<div></div> Prevotella	<div></div> Tannerella
Microaeroglobus	<div></div> Dolosigranulum	<div></div> Leptotrichia	<div></div> Prevotella_7	<div></div> TM7a
Microopobium	<div></div> Eikenella	<div></div> Ligilactobacillus	<div></div> Propionibacterium	<div></div> TM7x
Microacteroides	<div></div> Enterobacter	<div></div> Limosilactobacillus	<div></div> Providencia	<div></div> Treponema
Microergeyella	<div></div> Escherichia–Shigella	<div></div> Megasphaera	<div></div> Pseudomonas	<div></div> uncultured Bacteroidetes bacterium
Microfidobacterium	<div></div> F0058	<div></div> Methyloversatilis	<div></div> Pseudopropionibacterium	<div></div> uncultured Candidatus Saccharibacteria
Microosea	<div></div> F0332	<div></div> Microbacterium	<div></div> Reyranella	<div></div> Unknown
Microadyrhizobium	<div></div> Family XIII UCG-001	<div></div> Mogibacterium	<div></div> Rothia	<div></div> Veillonella
