Microbacterium] brachy group	<div></div> Brevundimonas	<div></div> Filifactor	<div></div> Moraxella	<div></div> Selenomonas
Microbacterium] nodatum group	<div></div> Butyrivibrio	<div></div> Fretibacterium	<div></div> Mycoplasma	<div></div> Shuttleworthia
Microbacterium] saphenum group	<div></div> Campylobacter	<div></div> Fusobacterium	<div></div> Neisseria	<div></div> Slackia
Microthiophila	<div></div> Candidatus Saccharimonas	<div></div> Gemella	<div></div> Odoribacter	<div></div> Sphingobium
Mycoplasmata	<div></div> Capnocytophaga	<div></div> Granulicatella	<div></div> Olsenella	<div></div> Sphingomonas
Microthiobacillus	<div></div> Catonella	<div></div> Haemophilus	<div></div> Oribacterium	<div></div> Staphylococcus
Microthiomyces	<div></div> Caulobacter	<div></div> Johnsonella	<div></div> Parascardovia	<div></div> Stenotrophomonas
Microthiagregatibacter	<div></div> Corynebacterium	<div></div> Kingella	<div></div> Parvimonas	<div></div> Stomatobaculum
Microthioprevotella	<div></div> Cryptobacterium	<div></div> Kosakonia	<div></div> Peptococcus	<div></div> Streptobacillus
Microthiorhizobium–Neorhizobium–Pararhizobium–Rhizobium	<div></div> Defluviitaleaceae UCG–011	<div></div> Lachnoanaerobaculum	<div></div> Peptostreptococcus	<div></div> Streptococcus
Microthioscardovia	<div></div> Dialister	<div></div> Lautropia	<div></div> Porphyromonas	<div></div> Streptomyces
Microthiennipila	<div></div> DNF00809	<div></div> Lentimicrobium	<div></div> Prevotella	<div></div> Tannerella
Microthiaeroglobus	<div></div> Dolosigranulum	<div></div> Leptotrichia	<div></div> Prevotella_7	<div></div> TM7a
Microthiopobium	<div></div> Eikenella	<div></div> Ligilactobacillus	<div></div> Propionibacterium	<div></div> TM7x
Microthiacteroides	<div></div> Enterobacter	<div></div> Limosilactobacillus	<div></div> Providencia	<div></div> Treponema
Microthiargeyella	<div></div> Escherichia–Shigella	<div></div> Megasphaera	<div></div> Pseudomonas	<div></div> uncultured Bacteroidetes bacterium
Microthiobacterium	<div></div> F0058	<div></div> Methyloversatilis	<div></div> Pseudopropionibacterium	<div></div> uncultured Candidatus Saccharibacteria
Microthioseae	<div></div> F0332	<div></div> Microbacterium	<div></div> Reyranella	<div></div> Unknown
Microthiadiazotrophic rhizobium	<div></div> Family XIII UCG–001	<div></div> Mogibacterium	<div></div> Rothia	<div></div> Veillonella
